## ARCHITECTS FOR A BETTER WORLD®

Düsseldorf, Germany  
Ingenhoven Architekten  
Architect Christoph Ingenhoven

### Innovative German architect INGENHOVEN in world class film production on sustainable building.

In 1991, innovative German Architect Christoph INGENHOVEN from Düsseldorf built the first German ecologically oriented high rise. Over the years, Ingenhoven has continuously proven his leadership in sustainable and environmental friendly building projects, winning numerous prizes for his innovative projects in Europe and Asia. The main station of Stuttgart and the Lufthansa Aviation Center in Frankfurt are superb award winning projects setting new standards in modern ecological building technology... and philosophy.
